Dorsey, Chief Special Master:

On June 7, 2018, petitioner filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*,² (the “Vaccine Act”). Compensation Programs, Department of Health and Human Services (“DICP”) have concluded that petitioner suffered the Table injury of GBS following a flu vaccine within the Table time period, and there is not a preponderance of the medical evidence that petitioner’s GBS was due to a factor unrelated to the vaccination *Id.* at 5. Respondent further states that this claim “meets the statutory severity requirement as petitioner’s medical records show that he experienced sequelae of his GBS for more than six months.” *Id.* Respondent concludes that “based on the record as it now stands, compensation is appropriate, as petitioner has satisfied all legal prerequisites for compensation under the Act.” *Id.*

In view of respondent’s position and the evidence of record, the undersigned finds that petitioner is entitled to compensation.

IT IS SO ORDERED.
